

Understanding straight lines

1 Draw two lines (one solid, one dotted) with the same...

2 Draw two lines (one solid, one dotted) with different...

3 Calculating values

The equation of a line is $Y_i = (b_0 + b_1 X_i)$. For Plots A-F, define for the **solid** line:

Plot	Intercept	Slope	when x =...	y = ?
A			25	
B			5.4	
C			-6	
D			0	
E			1028	
F			15
